

Name: Ar. Sana H

Designation: Assistant Professor, MCAP, Trivandrum

Educational Details

B. Arch – 2019

KMEA College of Architecture, Aluva

M. Plan– 2023

Government Engineering College, Thrissur

About: An architect turned educator with a passion for creativity and sustainability. Completed Bachelor's in Architecture from KMEA College of Architecture in 2019, spent two exciting years as a freelance architect, designing everything from homes to government buildings. In 2021, decided to dive into academia, joining the M.Plan program at Government Engineering College Thrissur. Believes in a philosophy that architecture is like turning art into tangible structures. Deeply invested in sustainable construction, using traditional materials, and creating designs that respond to our environment. As a faculty member, bridging the gap between art and architecture is considered a personal goal along with helping students see the beauty and functionality in every design, while also instilling a sense of responsibility towards our planet.

Interest: Committed to sustainability, advocates for the use of conventional and traditional materials in architecture, emphasizing climate-responsive design principles. Through teaching, aims to bridge the gap between art and architecture, inspiring students to create environmentally conscious, visually captivating designs that resonate with both functionality and aesthetic appeal.
